

ENVIRONMENTAL POLICY

AFT Sp. z o.o. deals with the design, production, sale, technical consulting and service of products related to cutting off, regulation, measurement and control of media flow in municipal and industrial installations.

The products we offer are made in compliance with the highest quality requirements, which guarantees the minimization of the impact of harmful substances on the natural environment. At the same time, these products, thanks to their pro-ecological applications, make a significant contribution to the protection of the natural environment.

We make every effort to ensure that the customer receives a modern and safe product.

We implement the Environmental Policy through the following strategic goals:

1. Maintaining and continuous improvement of the Environmental Management System in accordance with the applicable **PN-EN ISO 14001** standard.
2. Waste and resource management, while minimizing their impact on the environment.
3. Continuous modernization and improvement of processes - BAT.
4. Systematic training of employees in order to improve their qualifications and environmental awareness.

We declare:

- Compliance with the applicable legal requirements and the requirements specified by us in the field of environmental protection
- Use of materials that minimize the impact on the environment
- Providing financial resources necessary for the implementation of the Environmental Policy and the Environmental System

This Environmental Policy is publicly available, and each employee of AFT Sp. z o.o. has been acquainted with its content and has the task enforcement of legal provisions.
